

COMPASSIONATE CARE, FREE OF CHARGE

Grace Clinics of Ohio is a free medical ministry dedicated to serving the growing number of uninsured and underinsured individuals in our communities. We provide essential medical care, prescription assistance, specialist services, and prayer—all at no cost to our patients. Unlike many healthcare providers, we receive no government funding; instead, we rely entirely on the generosity of our community.

Grace Clinics of Ohio earned a 2025 Gold Rating from the NAFC Quality Standards Program, recognizing our commitment to high-quality, compassionate, and accountable care.

HOW WE PROTECT OUR VOLUNTEERS:

Grace Clinics operates under the protection of the Good Samaritan Law, which serves as our first line of defense by providing legal coverage for healthcare professionals who offer free care in good faith while adhering to standard medical practices. In addition, we provide malpractice coverage through the Federal Tort Claims Act (FTCA) and the Health Resources & Services Administration (HRSA), ensuring our volunteer providers are fully protected while serving in our clinics.

To maintain high-quality care, our credentialing process includes:

- ✓ Background checks
- ✓ License verification
- ✓ NPDB (National Practitioner Data Bank) reporting
- ✓ Standard Care Agreements (SCA) for Advanced Practice Providers (APPs)
- ✓ Shadowing & orientation to ensure a smooth integration into our patient care process

At Grace Clinics of Ohio, we are committed to providing quality, compassionate care—all made possible by our dedicated volunteers and generous donors.

Join us in making a difference. Your support helps transform lives, one patient at a time!
